Techno Industrial Corporation

Leading manufacturing of Fence Fittings —
Providing Tailored Solutions for Global Clients

Since our establishment in 2021, we have been dedicated to serve the fence fittings industry by supplying high-quality Hot Dipped Galvanized and Colour-Coated products for Residential, Commercial and Agricultural applications. We offer a comprehensive range of fence fitting in various sizes to meet diverse project needs.

With strong supply chain networks and advanced manufacturing capabilities, we are equipped to meet the growing demand for durable and reliable fence fittings. Our approach is combined with cutting-edge technology, technical expertise and a commitment to innovation to consistently deliver top-tier products to our valued clients.

We focus on precision, raw material quality, dimensional accuracy and functional efficiency to ensure superior performance across all our offerings.

We're proud to have earned the trust of clients worldwide through our dedication for continuous improvement, product innovation, and high standards of quality. Over the years, our business model has evolved, but our core commitment to manufacturing excellence has remained unchanged.

Techno Industrial Corporation's consistent product quality, industry-leading performance and strong manufacturing program are supported by advanced system including 5S and lean management practices. Our ecosystem is further strengthened by effective marketing strategies and an unwavering focus on customer satisfaction.

MISSION & VISION

Whenever it comes to precision in fencing accessories, **Techno Industrial Corporation** stands out with its expertise in engineering and manufacturing high-quality fence fittings. We consistently deliver products with a strong focus on customer satisfaction, all at highly competitive prices.

As a prominent manufacturer, exporter and supplier, we specialize in Hot Dipped Galvanized Pressed Steel Products, Fasteners, Bands, Wood Gate Fittings and Color-Coated Fence Components, serving clients across the USA and Canada. Our goal is to expand our product range while maintaining a customer-first approach and delivering top-tier quality at cost-effective rates.

STRATEGY Our goal is to provide our clients with the finest fence fittings through:

- ✓ Effective and resilient supply chain operations
- ✓ Strict quality control processes
- ✓ Complete customer satisfaction

STRENGTHS

Our journey to becoming a leading name in fence fittings has been powered by overcoming challenges through our core strengths, which include:

- ✓ A broad and efficient distribution network
- ✓ Advanced and modern infrastructure
- ✓ Strong marketing capabilities
- ✓ A team of experienced and skilled professionals
- ✓ Unwavering focus on quality control

Fasteners

A fastener or fastening is a hardware device that mechanically joins or affixes two or more objects together.

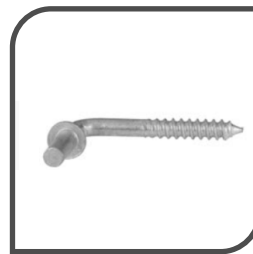

In general, fasteners are used to create non-permanent joints; that is, joints that can be removed or dismantled without damaging the joining components.

An ISO 9001:2015

Chain link fabric manufactured by us is distributed at several US locations.

Selvage describes how the ends of the chain link wires are finished for the top and bottom of the fabric. Knuckle means that the ends of the wires are folded over each other. Twist means the wires are twisted together to form pointed prongs. Residential fabric uses larger mesh sizes and smaller gauges, and commercial/industrial uses smaller mesh sizes and larger gauge diameters. The smallest mesh sizes, from 1-1/4" to 3/8", are High Security/Mini-Mesh.

Galvanized Before Weaving (GBW)

In this process, the wire is pre-galvanized before it is formed into a fabric. The weaving process creates an exposed cut end that will lack coating and be more apt to some minor rust in wet and severe weather conditions.

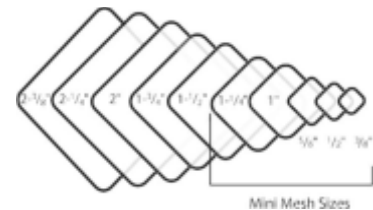

Selvage

Galvanized Wire Gauges

Available Mesh Sizes

Process	Coating	Gauge	Diameter	Class	ASTM
GBW	0.80 oz	11-1/2	0.113"	Class 3	A 817 Type II
	1.2 oz	11-1/2	0.113"	Class 1	A 392
	1.2 oz	11	0.120"	Class 1	A 392
	1.2 oz	9	0.148"	Class 1	A 392
